electricalservice@janickelectric.com

▪ **24 HOUR EMERGENCY SERVICE** - Our highly trained service personnel are fully prepared to troubleshoot and restore your electrical service quickly and efficiently.

▪ **PLANNED MAINTENANCE** – Janick Electric can design a preventative maintenance program for your facility to help keep your electrical system operating safely and effectively.

▪ **THERMOGRAPHIC INSPECTION** – Infrared inspections / thermal scan could identify increasing heat levels prior to a potential failure.

▪ **DESIGN-BUILD SOLUTIONS** – Specializing in design-build solutions since 1998, we can offer competitive, value engineering scenarios to save your organization money.
